University of Florida IFAS

Hillsborough County Extension

5339 County Road 579

Seffner, Florida 33584-3334

Make Check Payable to:

Tree and Landscape Advisory

The objectives of the ISA Certification Program

1. To be an educational program that will improve technical competency of personnel in the tree care industry
2. To create incentives for these individuals to continue their professional development
3. To provide the public and government a means to identify those professionals who have demonstrated, through a professionally developed exam and education program, that they have a thorough knowledge of tree care practices.

Arborist Training - ISA Certification Preparation

University of Florida
Hillsborough County Extension

Science you can use

Arborist Training ISA Certification Preparation

Certification is a voluntary program providing recognition of one's professional knowledge by one's peers.

INTERNATIONAL SOCIETY OF ARBORICULTURE (ISA) Certified Arborist recognition is given to those who:

1. meet the eligibility requirements for admission to the examination as set forth in this application,
2. successfully complete the examination,
3. maintain the necessary number of continuing education units (CEUs) to recertify after three years, and
4. pay the necessary recertification fees every three years.

ISA and FNGLA CEU's - requested

ISA Certification Exam is being scheduled for a Saturday in October, at Extension office in Seffner

Check the urbanforestry.ifas.ufl.edu website for updated information on CEU's and the ISA exam date and time

Urban and Community Forestry Program
Science you can use

The benefits of the Certification Program include the following:

1. Certification builds an individual's self-image. By studying for and passing the exam, individuals reaffirm to themselves and their peers a thorough knowledge and dedication to arboriculture.
2. Certification affords the public and those in government the opportunity to make an informed selection of services based on the knowledge that is represented by the certification designation.
3. The process of becoming certified and maintaining the designation provides incentives to the individual to continue his or her ongoing professional development.
4. Certification is a tool to help employers both in training their personnel and selecting new employees.
